1 ABOUT INTERBULL

OUR MISSION	OUR VISION
To enhance livestock genetic improvement through international data exchange and best methods development.	To be the worldwide network providing information services for the genetic improvement of livestock.
Interbull comprises Interbull Centre, an operational unit that provides services to its members and service users, and is governed by the Interbull Steering Committee, which is a permanent subcommittee of the International Committee for Animal Recording (ICAR).	OUR OBJECTIVE To support the cattle industry with accurate genetic information on bulls of the major breeds for use by importers and exporters, thereby facilitating selection of the best genetics for different countries, environments, or breeding goals.

2 INTRODUCTION

The Interbull 2020-2023 Strategic Plan outlines the changes Interbull envisages during the next three years. The plan sets out how Interbull will perform its activities towards its mission to enhance livestock genetic improvement through international data exchange and best methods development by focusing on six strategic goals.

- Meeting future data service needs
- Defining a new traits pipeline
- Providing international evaluations in the genomic era
- Continuously improve core services
- Strengthening governance
- Driving branding and marketing

This Annual Operating Plan describes Interbull's focus activities, projects, and outputs for achieving its goals. The plan specifies the forecast expenditure on the activities and projects that will deliver on the 2020-2023 Strategic Plan during the 2021 calendar year.

Interbull continues to engage with representatives from the Interbull Steering Committee (SC), the Interbull Technical Committee (ITC), ICAR, the Interbull Centre, and Interbeef as well as key Interbull service users to develop the research, services and capability that will deliver against these strategic goals.

INTERBULL STRATEGY 2020 -2023

Meeting future data service needs

OBJECTIVES

- · Maintain existing data exchange services
- Expand data sharing
- Understand and meet future data needs

ACTIVITIES

- Deliver and improve data exchange services
- Conduct a needs analysis
- Expand services where a compelling business case
- Collaborate with big data

Defining a new traits pipeline

OBJECTIVES

- · Identify key decision factors
- Define the service need
- Define and maintain relevant business models and fee structures

ACTIVITIES

- Appoint a Working Group
- Identify key decision factors for implementing any trait
- Define infrastructure needed and programs
- Develop business model, **Business Plan and** appropriate fee structure

Providing international evaluations in the genomic era

OBJECTIVES

- · Provide international genomic information
- Develop a system where all data can be used in one single step model
- Develop new methodologies

ACTIVITIES

- Provide input into SNPMace
- Develop system for optimal use of genomic
- Develop new

genetic improvement of livestock.

Continuously improving core services

OBJECTIVES

ACTIVITIES

- · Maintain high levels of service user satisfaction
- · Maintain relevant and accurate methods and tools

results and update

- · Maintain a fit-forpurpose governance
- structure

Strengthening governance

OUR VISION: To be the worldwide network providing information services for the

Driving branding and marketing

OBJECTIVES

- Responsive and transparent decisionmaking

OBJECTIVES

- · A clearly understood value proposition for Interbull
- · Timely and sufficient communication and marketing

ACTIVITIES

- Document and review existing governance model
- Better define relationship between ICAR and Interbull groups
- Ensure Interbull Centre is appropriately resourced
- Ensure best-practice systems, processes and reporting are in place

Innovative & leading-Cost-effective Independent Integrity Customer orientated Accurate Unbiased Transparent edge services

3 PRIORITIES FOR 2021

Interbull's highest priority is the delivery of its current services. If there is a lack of resources, the focus will be on ensuring high-quality service delivery, which may cause a delay or rescheduling of other activities or projects. In order to have uninterrupted services it is important to build the capability and capacity so that more than one person can provide each of the services.

"The 'HIGH' priorities for 2021 have been identified as:

SERVICES DELIVERY

- <u>High-quality delivery of Interbull Centre's services</u> is critical to its success. All of Interbull Centre's current services are hence identified as 'HIGH'.
- <u>Training of Interbull Centre Staff:</u> In order to have uninterrupted services it is important to build the capability and capacity so that more than one person can provide each of the services.

STRATEGIC GOAL 1 - Meeting future data service needs

- Release GenoEx-GDE 2.0 Improve the user experience by developing/implementing high-priority web interface
 features; Improve the quality of the Service (i.e. cross-referencing ICAR DNA WG recommendations on genotypes
 quality control or connecting GenoEx-GDE to IDEA, by developing/implementing database features).
- Release GenoEX-PSE 2.0 Implementation of new sex, breed, and percentage contribution features for GenoEx-PSE.
- <u>Launch EUrc PREP Database</u> Database populated with Dairy Production (PROD) and Beef Adjusted Weaning Weights (AWW) information; Standardize and review set of questions for additional dairy and beef traits; User interface available for uploading and looking up of information.

STRATEGIC GOAL 2 - Defining a new traits pipeline

 <u>Establish "New Traits Pipeline" Principles</u> - Establish a new WG and identify the key decision factors and process for introducing new traits.

STRATEGIC GOAL 3 - Providing international evaluations in the genomic era

- <u>snpMACE</u> Finalize software; Prepare necessary user's documentation; Validation analyses finalised; Issue a
 data call Brown Swiss and Holstein.
- Genomic Pre-selection & Future MACE Complete MACE software enhancements.

STRATEGIC GOAL 4 - Continuously improve core services

- Genomic-free EBV: WG recommendations released to customers Organise a webinar to inform customers about Genomic-free EBV Working Group recommendations.
- Post-Processing WG Apply new post-processing windows in January 2021 Test Run.
- <u>IG2.0</u> Definition of new project's agreement; GenoEx-GDE introduced in InterGenomics workflow; Implement Interbull Method for Genomic Reliability in InterGenomics-Brown Swiss.
- <u>InterGenomics-Brown Swiss; InterGenomics-Holstein</u> Cross-reference Service's quality checks with ICAR DNA Working Group recommendations.
- GenTORE international evaluation for "Age at Slaughter" results released and integrated with Interbeef
 Trait "Age at slaughter" stored in IDEA database; Interbeef workflow reviewed and updated for inclusion of such new trait.
- <u>EUrc ICAR-Interbull guidelines</u> Review and update minimum requirements for existing ICAR-Interbull guidelines.
- <u>EUrc stand-alone validation</u> Provide conventional validations for national evaluations of breeds registered in EU member states.

STRATEGIC GOAL 5 - Strengthening governance

- Document and review the existing Interbull governance model Complete a governance review.
- Implementation of new ICAR-SLU agreement.
- <u>Review of the Terms of Reference</u> Steering Committee agreement on necessary changes to the Terms of Reference.

STRATEGIC GOAL 6 - Driving branding and marketing

- <u>Customer-focused description of services</u> All key Interbull, Interbeef, EUrc, and GenoEx services clearly described.
- Value proposition for each of Interbull's core services described Value propositions for core services clearly defined.
- <u>Communication with stakeholders</u> Targeted Communication: Communicate and engage with stakeholders through meetings, workshops, etc; Broad Communication: Distribute newsletters and Maintain websites up-to-date and relevant; Alternative Communication: Develop and deliver alternatives for communication.

4 ANNUAL OPERATING PLAN FOR 2021

The 'Priority' assessment is based on the following 'traffic light' system, where green has the highest priority:

HIGH	 Must have this requirement to meet the business needs. The must requirements are non-negotiable Critical to the current delivery timeframe in order for the project or organisation to be a success
Medium	 Should have this requirement if possible, but project or organisational success does not rely on it Important but not necessary for delivery in the current delivery timeframe They are often not as time-critical or there may be another way to satisfy the requirement so that it can be held back until a future delivery timeframe
low	 Could have this requirement if it does not affect anything else in the project or organisation Desirable but not necessary, e.g. could improve the user experience or customer satisfaction for little development cost These will typically be included if time and resources permit

The 'Effort' assessment is based on a 'traffic light' system where green constitutes the least effort.

minor	Under 4 weeks total time requirement
Moderate	4 to 8 weeks
SIGNIFICANT	Greater than 8 weeks

Activities that depend on external activities have been included and have been identified in *italics*.

4.1 SERVICES

High-quality delivery of Interbull Centre's services is critical to its success. All of Interbull Centre's current services are hence identified as 'HIGH'. Delivery of the services accounts for approximately 60% of Interbull Centre resources. Most services require a significant amount of resources.

SERVICE	EFFORT	PRIORITY
MACE	SIGNIFICANT	HIGH
GMACE	SIGNIFICANT	HIGH
InterGenomics	SIGNIFICANT	HIGH
Interbeef	SIGNIFICANT	HIGH
European Union Reference Centre	SIGNIFICANT	HIGH
Validation Services	SIGNIFICANT	HIGH
GenoEx-PSE	Moderate	HIGH
Exchange of Genetic Traits	minor	HIGH
Communication, including Organisation of Meetings	SIGNIFICANT	HIGH
ICAR Services (DNA Interpretation Centre Accreditation)	Moderate	HIGH

4.3 Research and Development

STRATEGIC GOAL 1		OBJECTIVES					
Meeting future data se	ervice needs	1A. Maintain existing data exchange services1B. Expand data sharing					
		1C. Understand and meet future data needs					
FOCUS ACTIVITIES	DELIVERABLES IN 2021	2021 TARGET / OUTCOMES	EFFORT	PRIORITY			
1.1 Continue to deliver and improve data exchange	1.1.1 Release GenoEx-GDE 2.0	1.1.1 a) Improved User Experience by developing and implementing high-priority Web Interface Features	SIGNIFICANT	HIGH			
services to meet Interbull user needs		1.1.1 b) Improved Quality of the Service by developing and implementing additional Database Features i.e. cross-reference ICAR DNA WG recommendations on genotypes quality control; connect GenoEx-GDE to IDEA	SIGNIFICANT	HIGH			
		1.1.1 c) Use of GenoEx-GDE extended to additional Users (InterGenomics-Holstein, Interbeef)	minor	Medium			
	1.1.2 Release GenoEx-PSE 2.0	1.1.2 a) Implementation of new sex, breed, and percentage contribution features for GenoEx-PSE	minor	HIGH			
		1.1.2 b) Implementation of Parentage Discovery features for GenoEx-PSE Conditional on external activity: "Parentage Discovery" to be part of ICAR's DNA Data Interpretation Accreditation	minor	Medium			
		1.1.2 c) 2: Interbull Centre to provide technical part of the accreditation Conditional on external activity: Procedure and software for "Parentage Discovery" as part of ICAR's DNA Data Interpretation Accreditation developed	Moderate	Medium			
	1.1.3 Launch EUrc – PREP Database	1.1.3 a) Database populated with Dairy Production (PROD) and Beef Adjusted Weaning Weights (AWW) information	SIGNIFICANT	HIGH			
		1.1.3 b) Standardise and review set of questions for Dairy and Beef traits	SIGNIFICANT	HIGH			
		1.1.3 c) User interface available for uploading and looking up of information	SIGNIFICANT	HIGH			
	1.1.4 Genetic Traits Exchange	1.1.4 a) Expand Genetic Traits Exchange to additional breeds and associations Conditional on external activities	Minor	low			
1.2 Conduct a needs analysis to understand future data exchange requirements	No deliverables or outcomes in 2021						
1.3 Meet future data needs of customers through data science principles and collaboration with other big data users	No deliverables or outcomes in 2021						

STRATEGIC GOAL 2 Defining a new traits p		OBJECTIVES 2A. Identify the key decision factors 2B. Define the service need 2C. Define a business model and the relevant fee structure			
FOCUS ACTIVITIES	DELIVERABLES IN 2021	2021 TARGET / OUTCOMES	EFFORT	PRIORITY	
2.1 Appoint a "New Traits Pipeline Working Group	2.1.1 Establish "New Traits Pipeline"	2.1.1 a) WG to identify the key decision factors and process for introducing new traits	Moderate	HIGH	
	principles	2.1.1 b) Define the service need and the required pipeline for a new trait	minor	low	
2.2 Business Funding Models Task Force	2.2.1 Business Funding Model for traits to be introduced	2.2.1 a) Define (verify existing or develop a new) business model, business plan and appropriate fee structure for new traits	minor	low	
2.3 Assess database modifications		2.3.1 Assess necessary database and related software modification for inclusion of new type of traits (i.e. repeatability traits)	Moderate	HIGH	

STRATEGIC GOAL 3	3	OBJECTIVES				
Providing internationa	I evaluations in	3A. Provide international genomic information				
the genomic era		3B. Develop a system where all data can be used in one single step model				
		3C. Develop new methodologies				
FOCUS ACTIVITIES	DELIVERABLES	2021 TARGET / OUTCOMES	EFFORT	PRIORITY		
	IN 2021					
3.1 Provide	3.1.1 snpMACE	3.1.1 a) Finalise software	minor	HIGH		
international		3.1.1 b) Prepare necessary user's	minor	HIGH		
genomic information		documentation				
that can be used as		3.1.1 c) Validation analyses finalised (1)	Moderate	HIGH		
input into genomic evaluation		3.1.1 d) Issue a data call Brown Swiss and Holstein	minor	HIGH		
		3.1.1 e) Pilot run performed (2)	Moderate	Medium		
		3.1.1 f) Business Model developed for	minor	Medium		
		services				
3.2 Develop a	3.2.1 Genomic	3.2.1 a) Complete MACE software	SIGNIFICANT	HIGH		
system for the	Pre-selection &	enhancements				
optimal use of	Future MACE					
genomic and	3.2.2 Towards	3.2.2 a) Issue a data call	minor	low		
conventional	single step					
information	genomic					
	evaluation in					
	Interbeef					
3.3 Develop new	3.3.1 New	3.3.1 a) Get survey completed by members.				
methodologies and	conventional	WG to develop first test of model validation	minor	Medium		
validations to	validation (Beef)					
handle the impact of	3.3.2 New	3.3.2 a) Set of new methodologies finalised	Moderate	Medium		
genomic pre-	conventional	by WG				
selection on	validation (Dairy)	0000) T. I.		N.4 P		
international and	3.3.3 Technical	3.3.3 a) Technical-strategic (ITC/SAC)	minor	Medium		
national evaluations	strategy for next 5	meeting convened				
	years					

STRATEGIC GOAL 4		OBJECTIVES		
Continuously improve of	ore services	4A. Assess service user satisfaction and need	ds	
FOCUS ACTIVITIES	DELIVERABLE	4B. Review and adjust methods and tools 2021 TARGET / OUTCOMES	EFFORT	PRIORITY
TOCOG ACTIVITIES	S IN 2021	2021 TARGET / GOTCOMEG	LITORI	TRIORITI
4.1 Frequently assess	4.1.1	4.1.1 a) IDEA: Prepare a document with	minor	Medium
customer satisfaction,	Management	information on statistical tests performed by		
needs, and demands	review output:	the verify programs. Provide information on		
regarding Interbull's	Recommendatio	how to save outputs as PDF		
core services and	ns from the	4.1.1.b) IDEA: update documentation on	minor	Medium

	Evaluation of	evaluation in interpreti test full in April 2021		
	Carcass Trait			
		1		

4.2.7 lr	nterbeef	4.2.7 a) Review extraction process for VCE	Moderate	Medium
VCE W	VG: ve VCE	4.2.7 b) Streamlining of VCE parameter integration	Moderate	Medium
proces	-	4.2.7 c) Improve VCE parameters exchange with partners	minor	Medium
improv	ructure vement: ncy and pility	4.2.8 a) Increased infrastructure efficiency 4.2.8 b) Increased availability of infrastructure	SIGNIFICANT	Medium
4.2.9 E ICAR-I guidel	Interbull	4.2.9 a) Review and update minimum requirements for existing ICAR-Interbull guidelines	Moderate	HIGH
		4.2.9 b) Update ICAR-Interbull guidelines with additional topics	Moderate	low
4.2.10 stand- validat		4.2.10 a) Provide conventional validations for national evaluations of breeds registered in EU member states.	Moderate	HIGH
4.2.11 potent emerg		4.2.11 a) Identify and potential emerging problems in relation to genetic and genomic evaluations	Minor	HIGH
proble relatio geneti	n to c and	4.2.11 b Provide contingency plans		
genom evalua and pr	ations,			
	igency			

STRATEGIC GOAL 5 Strengthening governar	nce	OBJECTIVES 5A. Develop faster, more transparent decision-making 5B. Maintain a fit-for-purpose governance structure			
FOCUS ACTIVITIES	DELIVERABLES IN 2021	2021 TARGET / OUTCOMES	EFFORT	PRIORITY	
5.1 Shorten the duration of decision-making processes and communicating decisions	5.1.1 Evaluate decision-making processes and Interbull Centre resourcing to support	5.1.1. Complete review (as part of 5.2 and 5.3)			
5.2 Ensure the governance structure is suitable for delivery of Interbull services and for providing direction to Interbull Centre	5.2.1 Document and review the existing Interbull governance model	5.2.1 a) Complete a governance review, including identification of gaps and areas for improvement	SIGNIFICANT	HIGH	
5.3 Better define the relationship between ICAR (C'tees and WGs), SLU, Steering	5.3.1 Implementation of new ICAR- SLU agreement	5.3.1 a) New ICAR-SLU Agreement signed and implemented	Minor	HIGH	
Committee, IB Centre and IB Business Meeting delegates	5.3.2 Review of the Terms of Reference	5.3.2 a) Steering Committee agreement on necessary changes to the Terms of Reference	Moderate	HIGH	
5.4 Implement agreed changes	Implementation depends on findings in 5.1, 5.2 and 5.3	Implementation may occur after 2021			

STRATEGIC GOAL 6 Driving branding and marketing		OBJECTIVES 6A. Clearly define Interbull's value proposition 6B. Improve communication and marketing		
6.1 Better define services that are on offer	6.1.1 Customer focused description of services	6.1.1 a) All key Interbull, Interbeef, EUrc, and GenoEx services clearly described.	Moderate	HIGH
6.2 Clearly define the value proposition of Interbull's core services	6.2.1 Value proposition for each of Interbull's core services described	6.2.1 a) Value propositions for core services clearly defined	Moderate	HIGH
6.3 Specify target markets or audiences through identifying	6.3.1 Description of potential target markets/audiences	6.3.1 a) Potential target markets/audiences identified and described	Moderate	Medium
who uses which methodologies	6.3.2 Interbeef seminar	6.3.2 a) Contribute with ICAR in organising a seminar to promote Interbeef	minor	Medium
6.4 Communication with stakeholders	6.4.1 Communication with stakeholders	6.4.1 a) Targeted Communication: Communicate and engage with stakeholders through meetings, workshops, etc.	SIGNIFICANT	HIGH
		6.4.1 b) Broad Communication: Distribute newsletters and Maintain websites up-to-date and relevant	SIGNIFICANT	HIGH
		6.4.1 c) Alternative Communication: Develop and deliver alternatives for communication	Moderate	HIGH
	6.4.2 Draft communication and marketing plan written	6.4.2 a) Endorsement by the Steering Committee of a draft communications and marketing plan	minor	Medium
6.5 Stakeholder surveys or interviews, where appropriate	6.5.1 Conduct surveys and interviews as necessary to support work on 6.1-6.4	6.5.1 a) Necessary surveys and interviews conducted to inform and support the other key focus activities	Moderate	low

5 ACRONYMS

AWW	Adjusted Weaning Weight		
BSW	Brown Swiss		
EBV	Estimated Breeding Values		
EUrc	European Union reference centre		
GenoEx	International Geno type Ex change Platform: a database situated in the Interbull Centre for the		
	storage and exchange of genomic data.		
GenoEx-GDE	Genomic Data Exchange on the GenoEx Platform: A service provided by the Interbull Centre		
	through the GenoEx Platform that allows users to exchange genomic data		
GenoEx-PSE	Parentage SNP Exchange on the GenoEx Platform: A service provided by the Interbull Centre		
	through the GenoEx Platform for exchanging standardised sets of SNPs for genotyped animals to		
	facilitate parentage analysis activities.		
GenTORE	GENomic management Tools to Optimise Resilience and Efficiency - a European Union funded		
	project within the Research and Innovation Program H2020.		
GDE	Genomic Data Exchange		
GMACE	Genomic MACE: International Genomic Evaluation Methodology used at Interbull Centre		
GREL	Genomic Reliability Calculation		
HOL	Holstein		
ICAR	International Committee for Animal Recording www.icar.org		
ICBF	Irish Cattle Breeding Federation		
IDEA	Interbull Data Exchange Area		
IG2.0	InterGenomics 2.0: Second stage of InterGenomics with additional focus on Quality Assurance.		
Interbeef	ICAR's Interbeef WG, for the international evaluation of beef cattle. Interbeef evaluations are		
	performed at the Interbull Centre		
INTERBULL	International Bull Evaluation Services www.interbull.org		
InterGenomics			
	and Holstein breeds		
ITB	Interbull Interbull		
ITBC	Interbull Centre		
ITC	Interbull Technical Committee		
MACE	Multiple Across Country Evaluation: International Genetic Evaluation Methodology used at Interbul		
	Centre		
NGEC	National Genetic Evaluation Centre		
PDF	Portable Document Format		
PREP Database	Database with information on Performance Recording, Evaluation and Publication of national cattle		
	populations.		
PSE	Parentage SNP Exchange		
SAC	Interbull Scientific Advisory Committee		
SC	Interbull Steering Committee		
SLU	Sveriges lantbruksuniversitet: Swedish University of Agricultural Sciences		
SLURM	Simple Linux Utility for Resource Management		
SNP	Single Nucleotide Polymorphisms		
snpMACE	A meta-analysis to estimate SNP effects across countries		
TF	Task Force		
TMACE	Truncated MACE: Service provided by the Interbull Centre to assist countries with improving the		
	national genomic prediction and validation.
